

Alpha Calf Max

Complementary Feed for Calves

Alpha Calf max is a blend of natural plant extracts scientifically chosen to give optimum gut health in all calves.

For best results:

- Add Alpha Calf Max to colostrum at first feeding at 15ml.
- Add 5ml per feed in milk or milk replacer daily thereafter. Alpha Calf Max helps the calf to fight infection in the gut and maintain optimum growth while on milk or replacer.
- Hygiene at all stages of calf rearing is of utmost importance.
- Use 7 Stars Disinfectant as part of your control plan.

Alpha Calf Max

Alpha Calf max is a blend of natural plant extracts scientifically chosen to give optimum gut health in all calves.

Instruction: 5 ml per calf per feed (can be added to warm water)

Mix well before use

Composition: Feed Material: Glycerine, Sodium Chloride

Additives: Preservative, Citric Acid, Lactic Acid, Citrus Extract

Analytical constituents:

Crude Ash:	5.96%
Sodium:	2.36%
Crude Protein Potassium:	0.30%
Potassium:	0.09%
Crude Oil and Fats:	0.08%
Crude Fibre:	0.02%

Batch No: _____

Date of Manufacture: _____

Use by date: _____

Storage: _____

Disposal Considerations:

Dispose of empty containers according to local regulations.

Do not let produce enter drains.
