

Dairy Sure C Spray

Ready to use teat foam, spray, dip and udder wash for dairy cows

INSTRUCTION FOR USE

Pre milking

Apply Dairy Sure C Spray by spraying or dipping using foaming teat cup. Ensure the length of the teats are fully covered. Allow 30 seconds for activity and remove using a single service paper towel. If dipping, carefully empty and clean teat dip cups after every milking. Refill teat cups at each milking.

Post milking

Immediately after milking apply dairy sure c spray by spraying or dipping. Ensure that at least 2/3 of the length of the teats are covered. If dipping, carefully empty and clean teat cups after every milking. Refill teat cups at each milking.

Dairy Sure C Spray

Precautions: Always read the label and product information before using.

STORAGE AND DISPOSAL

- Store between 2 – 20 °C, do not allow to freeze.
